

# JUNE

## newsletter

## IMPORTANT INFO:

Dear BGCR Families,

Summer is here! I hope you and your families have some awesome plans for this summer. We at the Clubhouse have a bunch of amazing plans set up for our summer program. We hope to see you there!

### Summer Schedule Updates

- Enjoying Learning Outside - We will be taking advantage of the amazing summer weather and will have our core programs attending and learning at our nearby park regularly. So encourage your youth to attend every day so as to not miss out!
- Water Themed Thursdays - Summer can be incredibly hot, as such we will be planning activities to help cool off. Every Thursday will be a water day, be it balloons or sprinklers. A spare change of clothes never hurts, but members must still dress appropriately.
- Field Trip Update - Thanks to our collaboration with DHHS we will be having a bunch of Field trips this summer, some during the week with just the Clubhouse, and some on Fridays partnering with our Teen Center location. Be on the look out for our field trip forms so your youth doesn't miss out!

Just because our focus is on summer fun, doesn't mean learning will be any less. All of our academic, healthy lifestyle, and good citizenship programs will be regularly run with fun summer twists and incentives every week.

We hope to see you there!

Clubhouse Director - Jared Vodden
